Eneva	ENEV3.SA	9.5	Utilities / Diversified
Gerdau	GGBR4.SA	9.1	Basic Materials / Steel
Equatorial	EQTL3.SA	8.1	Utilities / Regulated Electric
Copel	CPLE3.SA	7.7	Utilities / Regulated Electric
Localiza	RENT3.SA	6.2	Industrials / Rental & Leasing

Table 1: Selected assets. Market capitalization of November 2026.

We concentrated more on Energy and utility companies, as they are more sensitive to the Brazilian macroeconomic environment, and due to the recent energy crisis that characterised these years. We also included some banks and industrials to diversify the sample.

2 Q1 - Data

Reference: DATA folder, `01_clean_data.py`, `logreturns_brazil.csv`, `prices_brazil_clean.csv`. We collected the data of the 15 assets from the LSEG portal,

3 Results

Numerical analysis and outcomes.

4 Conclusion

Final remarks.
